

Diabetic Disease Management Program

Don't Miss Out!

Muskingum University now offers the QCP Diabetic Disease Management Program to those employees and their dependents that are actively enrolled and eligible for benefits under the Health Insurance Plan. The Diabetic Disease Management Program provides individuals living with diabetes the educational tools necessary for them to manage their disease and help avoid further deterioration of their condition.

Eligibility to Participate in QCP's Diabetic Disease Management Program:

- Actively enrolled and eligible for benefits under Muskingum University's Health Insurance Plan
- Diagnosed with Diabetes
- Complete the Program's enrollment and participation requirements

Benefits of participation in the Diabetic Disease Management Program:

- Co-pays are waived on select medications and supplies - as determined by Quality Care Partners
- Free Glucometer
- Education programs as required by the Program, covered 100%
- Monthly educational visit to the pharmacist as required by the Program, covered 100%
- An invested nurse advocate to help provide support and assistance, who will help you navigate the complexities of the health care system
- Better understanding of your condition, lessening your risk for long-term complications and leading to a better quality of life

Please contact QCP for further information on how you may benefit from this program
